ABOUT ME

I am a Full-Stack Developer with a deep passion for technology and innovation.
Even before the COVID-19 pandemic, I was always fascinated by development and drawn to anything tech-related.
The pandemic gave me the opportunity to pivot my career and fully dedicate myself to a field I have always loved.
Since then, I have gained practical experience through independent projects and completed advanced courses in various technologies.

Currently, I am pursuing a Bachelor's degree in Computer Science at The Open University, where I am expanding my knowledge and honing my technical skills.
I am seeking a challenging role that will allow me to continue growing professionally and tackle complex problems.
I bring strong skills in problem-solving and end-to-end solution development, with a focus on continuous improvement and learning new technologies.

My goal is to join a dynamic team where I can apply my love for technology and innovation and contribute to meaningful and impactful projects.

EDUCATION

B.Sc. in computer science - student   December 2023 - present
The Open University

Python Full stack Development   September 2022 - April 2023
John Bryce, Tel Aviv
